

ENTREPRENEURSHIP, MINOR

This 15-credit interdisciplinary minor is open to students across the Institute. Students develop an entrepreneurial mindset and essential skills to apply to their own careers or development of their own businesses. These include how to incubate promising ideas; how to financially manage their enterprise; how to work with diverse people and ideas; how to be an ethical, mindful leader.

Students must take 3 credits from each of the menus. Courses can be taken in any sequence. ENPR-200 is a required course but does not need to be taken before other courses. The Entrepreneurship Minor is 15 total credits.
