INTERIOR DESIGN, MINOR

The Department of Interior Design offers a 15-credit minor to undergraduate architecture, construction management, and industrial design students, as well as interested students in other fields of study. Students may apply to the minor after meeting with the department as early as the first semester of the sophomore year. Determination of the required studio level and other courses to complete the minor will be based upon a review of the student's transcript (and portfolio). The completion of the minor will be noted on the student's transcript but will not be shown on the diploma.
